Our goal is a *thriving church for every people*, and there are a number of pieces to that puzzle.

A thriving church needs the Word of God in the language they know best. Missionaries serving with Ethnos Canada and our partners are currently working on 120 New Testament translations.

Indigenous churches need leaders that are capable of teaching the Word of God. Ethnos has training programs in many of the countries where we serve.

And as these churches send out missionaries of their own, we come along side them and provide sponsorship of flights.
