

## Monday **Pray for the team in Arctic Canada**

In August, **Shaun and Melanie Humphreys** and **Tim and Kathy Whatley** visited the families serving in the **Arctic**. The goal was to both encourage these families and to help them get clarity on what the next steps are in learning the language and culture of the Inuit. Please continue to pray for deep relationships with the Inuit, and opportunities to immerse themselves in the culture.

## Tuesday **"Pray God would use this place to draw many to Himself!" —in Mexico**

**Lucas and Jessica Rony** minister among the **Cora people of Mexico**. The Cora church currently does not have a church building. "Up until now we have been meeting in a house, but we are no longer able to do so. We can use the house of another believer for a few weeks, which buys us time to do a simple church building here, a roof mainly. ... Our hope is to build a simple roof structure to be able to meet under. One of the believers, Vicente, is eager to help us! Please pray for wisdom for how to do so and that God would use this place to draw many to Himself!"

## Wednesday **A Milestone 15 Years in the Making**

**Wayne and Gail Chen** and co-workers **Brandon and Rachel Buser** serve in **Papua New Guinea**. Wayne and Brandon made a trip to the **Biem church** to "encourage the church and put the finishing touch on the New Testament." Praise God that He brought the Biem church elders out of "a season of disunity and tension" to repentance and reconciliation. After 15 years of translation work, the team will complete the last New Testament translation check this month. "We are hoping to finish the project and hopefully put the printed New Testament in the hands of the church in the summer of 2025."

## Thursday **North Wahgi New Testaments: printing and almost ready to ship**

Levi and Robyn Lenz and **Daniel and Rachel Hulley** minister among the **North Wahgi people of Papua New Guinea (PNG)**. "It is an exciting time in the North Wahgi work. The [North Wahgi] New Testaments are being printed, and Lord willing, ... they will [soon] be ready to ship to PNG." Praise the Lord that the New Testaments are almost in the hands of the North Wahgi people. Pray that the New Testaments would arrive in country and be transported to the church without any hiccups. If the process goes quickly and smoothly, the church will have a dedication in October.

## Friday **“Pray that this door would stay open.” —in Asia Pacific**

David and Bethanna Kwast serve in Asia Pacific. They completed their missionary training ([ethnostraining.ca](http://ethnostraining.ca)) with Ethnos Canada. “Although the original village (the ‘M’ village) that we were hoping to move to seems to be off the table right now, a neighbouring village where the king lives seems to be a good second option. Both villages speak the same ‘K’ language, and the king seems excited with the possibility of [our] coming and living there!” After they are given official written permission, the Kwasts hope to build a house, move into the village, study language and culture and build relationships. “Please be praying with us that this door for ministry would stay open. Also, pray that we would have unity as a team and wisdom as we start to think about the logistics of moving into a people group like this.” Connect with the Kwast family: [ethnos.ca/david-and-bethanna](http://ethnos.ca/david-and-bethanna)
