

## Monday **Register for the webcasts today: A Third of Us**

On June 8, the **International Day for the Unreached**, we will join the Alliance for the Unreached in prayer for the third of world who have yet to hear the true gospel. The Alliance for the Unreached will be hosting “Until All Hear,” a series of webcasts on Wednesdays leading up to this day of prayer, where you can hear directly from “dozens of ministry organizations [including Ethnos] that are actively implementing strategies to penetrate the dark regions of the world” with the light of God’s Word. Pray that this webcast will inform, encourage and spur people on. As we consider the harvest, pray for more labourers.

## Tuesday **The Importance of Literacy in Latin America**

Canadians **Tim and Robin Walker** minister to the **P1 people of Latin America**. As P1 children go through school, they are taught in Spanish, and they have “zero curriculum” in the P1 language. “If these children start learning to read [the P1 language] in school, it will revolutionize the efficacy of the written Scriptures.” Tomás, director of the Ministry of Education in one of the western states of the country, is going to visit P1 villages and then visit the Department of Education in hopes of getting P1 literacy books registered as official school curriculum. “Pray for success in this as it has powerful ramifications!”

## Wednesday **Pray for the Simbari Church, Papua New Guinea**

In celebration of serving in **Papua New Guinea** (PNG) for 75 years, we are praying for a series of people groups New Tribes Mission PNG is working among. The first we will highlight is the Simbari. The Simbari people live in many different hamlets and villages in the mountains of the Eastern Highlands province.

The **Simbari church** planting team spent many years learning the language and culture, teaching literacy and translating the Bible, and in 2023, the Simbari New Testament and portions of the Old Testament were presented to the people.

Please pray for the church as they continue to grow in their love for God, that they would stand strong on His Word. Pray that God would prepare hearts for the gospel to spread to more and more villages. Pray for the Simbari church and its leaders to be faithful witnesses and ministers of the Word of God. ## Thursday **Making Progress on Understanding the Kuyu Language, Papua New Guinea**

**Jonathan and Devon Ames** minister among the **Kuyu people of Papua New Guinea**. Pray for stamina as the team progresses through culture and language analysis and nears the end of formal study. Praise God that the team has developed an approved orthography (alphabet). Pray as they prepare physically, emotionally and spiritually for a literacy kick-off, Lord willing, in September. "Before we call for a literacy kick-off, we need to complete a couple significant cultural write-ups, finish discourse analysis and compile around 15,000 words of Kuyu text that can be inputted into the literacy construction software."

## Friday **Ruled By Anger, Jealousy and Fear**

**Mark and Shelbi Fitzpatrick** are preparing to live among the **Gende people of Papua New Guinea (PNG)**. The team has been offered land to build their houses on. Mark and teammates Nate and Ricky flew into Gende to sign land agreements. However, during the meeting, fighting broke out, and two men were badly injured. "Please join us in praying for Gende. This confirmed to us how deep the need is here in PNG. So many are still stuck in old customs, ruled by anger, jealousy and fear. Clueless ... [that] Christ willingly died on our behalf." Pray that the people can "cool off and work through things" so the team can build their houses.

The two injured men were flown to Goroka to receive stitches.
